

# Features

- **Metal frame for durability;**
- **LCD More precise control forward/backward, left/right,up/down movements;**
- **Auto stable & precision speed;**
- **Miniature size & light weight;**
- **Small size provides agility and speed;**
- **Made of unique material to withstand crashes**
- **Easy to fly**

# Specification

**Function: go up and down, go forward and backward, turn left and right;**

**Motor parameters: 370 high-magnetic motor;**

**Transmitter: LCD / PRO II professional remote control;**

**Receiver: MJX-002 digital proportional remote control receiver;**

**Battery: 7.2V 1500mAh lithium cobalt battery;**

**Frequency : 27MHz, 40MHz,**

**Charging time: 1.5 h**

**Distance to fly: 50m**

**Time of flight: about 15 minutes**

**Weight: 4KG;**

**body length: 68cm**

**body high: 31cm**
