**TAKEOFF**

## EVENTS

## SKYSPARKS

PRIZE  
INR 2,40,000

The competition involves RC aircraft with electric motors. The competition provides a platform to compete different flyers through a series of different rounds doing different manoeuvres and showing their talent in flying like payload dropping, limbo flying and on spot landing. More than 300 people participated in Sky Sparks 2018 which was sponsored by Boeing.

PRIZE  
INR 80,000

## HOVERMANIA

The competition as the name suggests is a rugby match among hovercrafts. Each team has to design and fabricate one hovercraft that is lightweight, easily manoeuvrable, quick and strong. They must out-throw their opponent in a match of hovermania. They must push the other opponents out of the arena, the last but staying inside the arena wins the competition. The team has to implement tactical strategies in order to succeed. Here is a chance to design the most efficient quick wrestling hovercraft that you have ever imagined.

## MULTIROTOR

PRIZE  
INR 1,00,000

Come meet some of the top Multi rotor pilots, technicians, inventors and enthusiasts of the country at Take-off, Techkriti. Amaze the audience with your models and make this competition a great success with your performances. You will be judged on various aspects of a multirotor that is on the expertise of your flying skill, the stability of your bot and the ability to pick and drop payloads. Your multirotor should be well fabricated and controls should be highly sophisticated in order to advance further in this competition.
